DETAILED ACTION

Status of the Application

1. Receipt is acknowledged of an amendment, which was dated on October 27, 2003.

Status of the Claims

2. Claims 40-41, 44-53, 56 and 63 were pending. Applicants amended claim 40 and added claims 64-68. Therefore, claims 40-41, 44-53, 56 and 63-68 are currently pending.

Examiner's Amendment

3. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Ginger R. Dreger on January 22, 2004 (see attached interview summary).

The application has been amended as follows:

- a. Claims 66-68 have been cancelled.

Art Unit: 1639

- b. For claim 40, the phrase “(4) comprises a chemically reactive group” has been replaced with “(4) comprises a free chemically reactive group” in the seventh line of the claim.
- c. For claim 40, the phrase “covalent bond with the target protein-ligand conjugate” has been replaced with “covalent bond with said free chemically reactive group in the target protein-ligand conjugate” in the line just before part(b) of the claim.
- d. For claim 40, the phrase “covalently to the chemically reactive group” has been replaced with “covalently to the free chemically reactive group” in the last line of the claim.

Reasons for Allowance

4. The following is the Examiner’s statement of reasons for allowance:

The claims are allowed for the reasons that the prior art of record does not teach or fairly suggest Applicants’ claimed method. In addition, the current amendments overcome a problem regarding the definiteness of the claim language in claim 40.

Therefore, claims 40-41, 44-53, 56 and 63-65 (renumbered 1-16) are allowed.
